

## Funding for Water and Wastewater Infrastructure Available

On August 15, 2013, the Texas Water Development Board (TWDB) approved the State Fiscal Year (SFY) 2014 Clean Water (CWSRF) and Drinking Water State Revolving Fund (DWSRF) Intended Use Plans (IUP), which includes a list of projects eligible for funding. The CWSRF provides financial assistance to political subdivisions, disadvantaged communities, and other eligible applicants for wastewater infrastructure and treatment, stormwater, nonpoint source pollution control, and estuary management projects. The DWSRF provides financial assistance to political subdivisions, disadvantaged communities, and other eligible applicants for water infrastructure and source water protection projects. Approximately \$325,000,000 is available to fund CWSRF projects and approximately \$107,000,000 is available to fund DWSRF projects. The CWSRF IUP is available at [www.twdb.texas.gov/financial/programs/cwsrf/](http://www.twdb.texas.gov/financial/programs/cwsrf/). The DWSRF IUP is available at [www.twdb.texas.gov/financial/programs/dwsrf/](http://www.twdb.texas.gov/financial/programs/dwsrf/).

In mid-August, the TWDB extended invitations to entities with projects that were listed on the IUP's Invited Projects List to apply for funding. Applications will be opened and processed for both funding programs starting at noon on August 30, 2013. The amount of completed applications received will be monitored throughout the year and additional invitations will be extended to projects on the Project Priority List until all remaining funds are committed. More information about each funding option will be provided in the invitation letters.
